

**UK Coalition
to Stop TB**

17th February 2010

Dear UK Coalition to Stop TB member,

Target TB and the UK Coalition to Stop TB are delighted to invite you to a joint event on World TB Day 2010.

A private reception will be held in **The Conference Room, Mary Sumner House, Westminster, London**, on 24th March 2010 **from 6.30 to 8.30pm**. The event will launch Target TB's photo exhibition - 'Hope – stories from India', and the UK Coalition to Stop TB's 2010 Campaign.

In 2010, two million people will die from TB. This ancient disease remains one of the biggest killers in the world today.

The UK Coalition to Stop TB's campaign is calling on all the major political parties to continue to support and scale up the fight against TB globally and in the UK, and to ensure that TB is a priority in the global health agenda.

Target TB's photographic exhibition features the pictures of professional photographer, David Brunetti, who travelled to India with Target TB to document the impact of the TB pandemic on some of the country's most marginalised communities. The exhibition will show some of his most informative and poignant images to raise awareness of, and advocate for, TB control in India.

This promises to be an interesting and enjoyable evening, giving the opportunity for you to hear about Target TB and the UK Coalition's work in the fight against the global TB epidemic.

Please RSVP to Domonique Gallagher at Target TB by 5th March if you would like to attend, giving the names of those attending, together with e-mail/postal address so that directions and personal invitation cards can be sent.

Telephone: 01273 827070; Email: intern@targettb.org.uk

We very much look forward to seeing you on the night.

Yours sincerely

A handwritten signature in black ink that reads "N. C. Jeffery".

Nikki Jeffery
Director, Target TB
